Board of Trustees Firefighters' Pension Investment Fund 1919 S. Highland Ave. Building A, Suite 237 Lombard, IL 60148

LETTER OF TRANSMITTAL

We are pleased to present the Annual Comprehensive Financial Report for the Firefighters' Pension Investment Fund (FPIF) for the fiscal year ended June 30, 2023.

The FPIF was created by P.A. 101-0610 which was signed into law by the Governor of Illinois on December 18, 2019. The law created a nine-member interim Board appointed by the Governor. The law also created a permanent Board that was first seated on January 4, 2021. The permanent Board is comprised of three elected active duty firefighters, one elected retired firefighter, three elected executive representatives, a representative of the Illinois Municipal League, and a representative of the Associated Firefighters of Illinois.

The legislation established broad parameters for the transfer of assets from local Article 4 (Article 4 of the Illinois Pension Code, which created and regulates firefighter pension funds) pension funds into the FPIF portfolio. It established a Transition Period, ending no later than June 30, 2022, within which the FPIF was to transfer assets and assume its full statutory responsibilities. P.A. 101-0610 authorizes the FPIF to retain an executive director, staff, auditors, actuaries, custodians, and other professional service providers required to prudently manage an institutional portfolio. It also requires the FPIF, on a go forward basis, to provide ongoing audit and actuarial services to its consitutent retirement systems.

On April 16, 2021, a complaint was filed in Kane County Circuit Court against FPIF and other defendants challenging the constitutionality of P.A. 101-0610. On May 25, 2022, Kane County Circuit Judge Robert Villa issued a ruling and opinion in the litigation over the constitutionality of P.A. 101-0610. In short, Judge Villa ruled in FPIF's favor on all remaining counts, holding that the statute is constitutional. The Illinois Appellate Court affirmed that ruling in February 2023. The plaintiffs further appealed that ruling, and the appeal is pending before the Illinois Supreme Court. FPIF and the other defendants are continuing to vigorously defend the constitutionality of the statute.

During FY 2022, FPIF successfully completed the transition of the investment assets of the propensity of Article 4 funds covered under P.A. 101-0610. The investment assets of 278 Article 4 Funds totaling \$8.0 billion (98.1% of estimated total assets) were transitioned prior to June 30, 2022, and an additional 14 funds with assets of \$143.7 million (1.8% of estimated total assets) were transitioned on July 14, 2022. On December 16, 2022, FPIF adopted its first ever Annual Comprehensive Financial Report (ACFR), for the fiscal year ended June 30, 2022.

Since that time, through FY2023, the focus of FPIF has been on its portfolio, specifically in moving the portfolio from the interim asset allocation adopted to facilitate the transition of assets, to its long-term asset allocation. As well, FPIF inititated two statutorily required programs, the issuance of actuarial reports for Article 4 pension funds, and the auditing of those funds as defined by statute.

The management of FPIF is responsible for the compilation and accuracy of the financial, investment and other information contained in this report. Additionally, FPIF's Board of Trustees has established an Audit and Compliance Committee, which is comprised of three Board Trustees. The Committee meets quarterly or as needed and discusses FPIF's audit and compliance procedures and reports. To the best of our knowledge and belief the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of FPIF.

Management is responsible for establishing and maintaining adequate internal controls over financial reporting. FPIF's internal controls over financial reporting are designed to provide reasonable assurance regarding safekeeping of assets and reliability of financial records in accordance with generally accepted accounting principles. These controls include appropriate segregation of duties and sound practices in the performance of those duties. The cost of a control should not exceed the benefits likely to be derived. The valuation of costs and benefits requires estimates and judgements by management. The objective of internal controls is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Illinois Pension Code requires an annual audit of the financial statements of FPIF by independent accountants selected by the FPIF Board of Trustees. This requirement has been complied with, and the independent auditor's unmodified report on FPIF's Fiscal Year 2023 financial statements has been included in this report.

Accounting principles generally accepted in the United States of America require that management provide a narrative, introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A (pages MD&A 1-6 of the report) and should be read in conjunction with it.

Key Developments and Initiatives

Prior to FY2023 FPIF relied exclusively on its interim asset allocation to structure the portfolio. The interim asset allocation was structured to facilitate the efficient consolidation of assets from legacy firefighter pension funds to FPIF's single portfolio. The interim asset allocation relied

heavily on passively managed strategies with a focus on minimizing costs and maximizing liquidity. The interim asset allocation did not provide for significant exposure to active management or alternative assets.

In FY2023 the Board took steps to move away from the interim asset allocation and towards the long-term asset allocation. FPIF acknowledges that this process will take years to fully implement.

The first step in this process was the selection of two active fixed income managers, Brown Brothers Harriman & Co., and Garcia Hamilton & Associates.

On May 26, 2023, the Board took a second critical step in this portfolio evolution—It retained Meketa Investment Group, Inc. as its private markets' investment consultant.

Besides making improvements to the portfolio in FY2023, FPIF also took steps to meet other statutory obligations. P.A 101-0610 required that FPIF perform audits on each Article 4 pension fund over a three-year cycle, and to provide annual actuarial statements including calculation of a minimum statutory contribution. Both responsibilities had previously been held by the Illinois Department of Insurance.

On December 16, 2022, the Board selected two audit firms, Kerber, Eck, & Braeckel LLP, and RSM US LLP, to perform those audits. Audits of the first tranche of 63 firefighter pension funds commenced on March 31, 2023.

In FY2022 FPIF laid the foundation for issuing actuarial statements for member funds. These preparations included the selection of Foster & Foster as the Board's actuary and adoption of an actuarial template. FPIF issued its first actuarial statement on October 2, 2022, and by the end of FY2023 the Board had issued 202 actuarial statements.

Acknowledgments

This report was prepared through the combined effort of the FPIF staff under the leadership of the Board of Trustees. It is intended to provide reliable information to its users for making decisions and for determining responsible stewardship for the assets contributed by Member Systems.

The report is made available to the Governor, the Illinois Finance Authority, Member Systems, and other interested persons by request. We thank all those who work with FPIF and help the organization achieve its mission.

The following sections of the report present detailed financial statement and supplemental information in conformity with generally accepted accounting principles (GAAP) applied within guidelines established by the Governmental Accounting Standards Board (GASB)

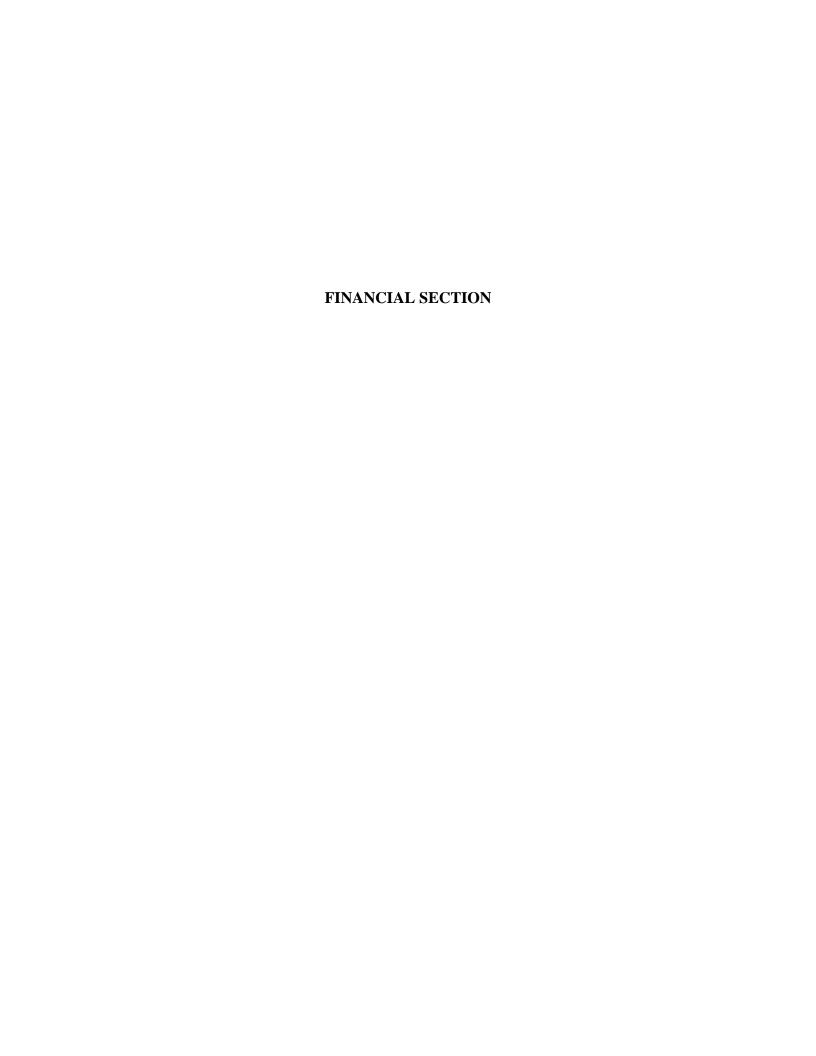

Respectfully submitted,

William Atwood

Executive Director/Chief Investment Officer

INDEPENDENT AUDITOR'S REPORT

The Honorable Chairman Members of the Board of Trustees of the Firefighters' Pension Investment Fund Lombard, Illinois

Opinions

We have audited the financial statements of the Firefighters' Pension Investment Fund (the Fund) as of June 30, 2023 and 2022, and the related notes to financial statements, which collectively comprise the basic financial statements as listed in the accompanying table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Firefighters' Pension Investment Fund as of June 30, 2023 and 2022, and the changes in fiduciary net position for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Fund's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial

reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fund's basic financial statements. The supplementary information is presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, investment section, statistical section and other information, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Sikich LLP

Naperville, Illinois November 20, 2023

Firefighters' Pension Investment Fund (FPIF)

Management's Discussion and Analysis

The FPIF was created by P.A.101-0610 which was signed into law by the Governor of Illinois on December 18, 2019. The law created a nine-member interim Board appointed by the Governor. The law also created a permanent Board that was seated on Janury 4, 2021. The permanent Board is comprised of three elected active duty firefighters, one elected retired firefighter, three elected executive representatives, a representative of the Illinois Municipal League, and a representative of the Associated Firefighters of Illinois.

The legislation established broad parameters for the transfer of assets from local Article 4 (Article 4 of the Illinois Pension Code, which created and regulates firefighter pension funds) pension funds into the FPIF portfolio. It established a Transition Period, ending no later than June 30, 2022, within which the FPIF was to transfer assets and assume its full statutory responsibilities. P.A. 101-0610 authorizes the FPIF to retain an executive director, staff, auditors, actuaries, custodians, and other professional service providers required to prudently manage an institutional portfolio. It also requires the FPIF, on a go forward basis, to provide ongoing audit and actuarial services to its consitutent retirement systems.

The following Management's Discussion and Analysis (MD&A) provides an introduction and overview of the Firefighters' Pension Investment Fund (FPIF) financial activities for the fiscal years ended June 30, 2023, 2022 and 2021.

Transition of Investment Assets from Article 4 Funds to FPIF

During FY 2023, the investment assets of 14 funds outstanding as of June 30, 2022, totaling \$143.7 million were transitioned on July 14, 2022.

During FY 2022, FPIF successfully completed the transition of the investment assets of the propensity of Article 4 funds covered under P.A. 101-0610. The transition was completed in ten tranches beginning on October 1, 2021, and concluding on July 14, 2022. The investment assets of 278 Article 4 Funds totaling \$8.0 billion (98.1% of estimated total assets) were transitioned prior to June 30, 2022.

Financial Highlights

The net position of FPIF increased \$1.1 billion in FY 2023 resulting in an ending net position of \$7.9 billion for the fiscal year ended June 30, 2023.

Since its inception FPIF has been focused on establishing operations, hiring a staff, conducting an election of a permanent Board of Trustees, retaining key partners (investment consultant, accounting and audit consultant and custodian) and developing the processes that were used to transition investment assets from its approximately three hundred constituent retirement systems. This transition process was completed in ten tranches in accordance with the transition plan developed by FPIF and its retained consultants. Expenses related to these activities were funded by an Inter-Governmental Agreement (Loan) with the Illinois Finance Authority (IFA) to provide up to \$7.5 million in operating funds through the Transition Period, to be repaid at an agreed upon, below market, rate of interest over time, commencing with the conclusion of the Transition Period. The June 30, 2023, FPIF financial statements reflect the

Management's Discussion and Analysis (Continued)

amount originally drawn on this loan of \$5.0 million (including \$93 thousand in capitalized interest) as of June 30, 2022 and subsequent loan repayments of \$2.5 million during FY 2023. Also reflected are the related FY 2022 and FY 2023 operating expenses, as well as, the FY 2022 and FY 2023 investment activity associated with the investment assets transitioned during the fiscal years. The comparable figures shown for June 30, 2021, in this section reflect only the amount drawn on this loan and the related operating expenses as no investment assets were transitioned from Article 4 Funds as of June 30, 2021.

Overview of the Financial Statements

FPIF's financial statements are prepared on an accrual basis in accordance with U.S. generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and are comprised of the Statement of Fiduciary Net Position, the Statement of Changes in Fiduciary Net Position, and Notes to Financial Statements.

The Statement of Fiduciary Net Position presents information on FPIF's assets and liabilities and the resulting net position.

The asset and deferred outflow balances presented in the summary table below as of June 30, 2023, consist of cash (\$3.9 million), investments (\$7.9 billion), interest receivable from investments (\$21.9 million), various other receivables (\$29 thousand), prepaid expenses (\$92 thousand) and deferred outflows related to pensions-GASB 68 (\$49 thousand).

The asset balances presented in the summary table below as of June 30, 2022, consist of cash (\$2.5 million), investments (\$6.9 billion), interest receivable from investments (\$5.9 million), receivables related to investments sold (\$206 thousand), various other receivables (\$33 thousand) and prepaid expenses (\$101 thousand).

Comparable balances as of June 30, 2021, consisted of cash (\$233 thousand), prepaid expenses (\$60 thousand) and security deposit (\$5 thousand).

The liability balances presented in the summary table below as of June 30, 2023, consist of payables related to investments purchased (\$13.1 million), accounts payable and accrued liabilities (\$916 thousand), loan payable to IFA (\$2.5 million - consisting of \$2.4 million in principal and \$93 thousand in capitalized interest) and IMRF net pension liability – GASB 68 (\$339 thousand).

The liability balances presented in the summary table below as of June 30, 2022, consist of payables related to investments purchased (\$9.3 million), accounts payable and accrued liabilities (\$1.4 million), and loan payable to IFA (\$5.0 million - consisting of \$4.9 million in principal and \$93 thousand in capitalized interest).

Comparable balances as of June 30, 2021, consisted of accounts payable (\$188 thousand), accrued liabilities (\$84 thousand) and loan payable to IFA (\$2.6 million).

The increase in asset and liability balances over the FY 2023, 2022 and 2021 years was due to activities related to the transition of investment assets from Article 4 Funds to FPIF that was completed in FY 2022 and FY 2023, additional cash contribution and withdrawal activity by member funds post transition and associated investment income/loss and operations activities.

FPIF began participating in the Illinois Municipal Retirement Fund (IMRF) defined benefit plan as of January 1, 2022. Accordingly, the Fund has included deferred outflows related to pensions of \$49 thousand and an IMRF Net Pension Liability of \$339 thousand in the June 30, 2023 financial statements based on the most recently available valuation as of December 31, 2022. As the Fund began participation in the plan on January 1, 2022, a valuation was not available as of December 31, 2021.

TOTAL LIABILITIES	16,838,306	15,754,185	2,861,824
NET POSITION	7,920,139,092	6,872,688,576	(2,564,099)

Management's Discussion and Analysis (Continued)

The Statement of Changes in Fiduciary Net Position presents information regarding changes during the fiscal years ended June 30, 2023 and 2022. The Condensed Statement of Changes in Fiduciary Net Position presented in the table below also includes information from fiscal year 2021.

This statement reflects activities related to the transition of investment assets from Article 4 Funds, additional cash contributions and withdrawals from Article 4 Funds post transition, the investment activities associated with these assets after the transition was completed and operating expenses related to the establishment of FPIF's operations, work performed on the transition and other key initiatives of the organization.

These expenditures were funded by draw downs on the IFA loan during fiscal years 2021 and 2022. In FY 2023, expenditures and repayments of the original IFA loan drawdowns were paid from the consolidated FPIF portfolio.

The information presented in the summary table below as of June 30, 2023 consists of member fund contributions (\$734.4 million), investment income (\$688.2 million of which \$919.7 million was from unrealized gain related to general market fluctuation), member fund withdrawals (-\$371.2 million) personnel expenses (-\$1.5 million), professional services expenses (-\$1.9 million) and operations expenses (-\$567 thousand).

The information presented in the summary table below as of June 30, 2022 consists of member fund contributions (\$8.0 billion), investment loss (-\$1.1 billion of which -\$935 million was from unrealized loss related to general market fluctuation), member fund withdrawals (-\$28.5 million) personnel expenses (-\$1.0 million), professional services expenses (-\$2.0 million) and operations expenses (-\$329 thousand).

Comparable balances as of June 30, 2021, consisted of personnel expenses (-\$875 thousand), professional services expenses (-\$1.2 million) and operations expenses (-\$191 thousand).

The increase in net position held in trust for pool participant balance over the FY 2023 and 2022 fiscal years was due to activities related to the transition of investment assets from Article 4 Funds to FPIF that was completed in FY 2022 and 2023, additional cash contribution and withdrawal activity by member funds post transition and associated investment income/loss and operations activities.

Specifically, the variances on major line items between FY 2023 and FY 2022 were as follows:

- Member Fund Contributions decreased in FY 2023 by \$7.3 billion compared to FY 2022 due to the completion of the transition of the majority of Article 4 Fund investment assets during FY 2022.
- Net Investment Income increased in FY 2023 by \$1.8 billion compared to FY 2022 driven primarily by an improvement in unrealized gain/loss related to general market appreciation during FY 2023.
- Member Fund Withdrawals increased in FY 2023 by \$342.7 million compared to FY 2022 driven primarily by increased withdrawal activity by Article 4 Funds for use in paying benefits and operating expenses at the local fund level during FY 2023.

Management's Discussion and Analysis (Continued)

Capital Assets

FPIF does not have any capital assets that meet its capitalization threshold to report on its financial statements.

Long-Term Debt

FPIF entered into a loan agreement with the Illinois Finance Authority to provide funds for the payment of ordinary and regular costs associated with the implementation of the transition process. The Closing Date of the loan was March 30, 2020. FPIF was authorized to borrow up to \$7.5 million until the Final Draw Date, June 30, 2022. The loan is subject to accrued capitalized interest monthly at an annual rate of 1.50% plus the Federal Funds Rate. As of June 30, 2023, 2022 and 2021 the loan had a principal balance outstanding of \$2.5 million, \$5.0 million and \$2.6 million respectively, including capitalized interest. See note #3 for additional information on FPIF's long-term obligations.

Future Outlook

In the future, FPIF plans to accomplish its strategy of consolidating the investment assets of local Article 4 funds with the goals of maximizing returns within a targeted risk profile and reducing investment related expenses and therefore creating more funds which can be used to pay member benefits. The process of transitioning the investment assets of Article 4 Funds was completed in accordance with statute. With the transition completed, FPIF will transition into a business-as-usual environment and will therefore provide additional value-added services to participant pension funds going forward.

NOTES TO FINANCIAL STATEMENTS

June 30, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Firefighters' Pension Investment Fund (the Fund) have been prepared in accordance with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

A. Reporting Entity

The Fund was established by legislative act of the Illinois General Assembly, P.A. 101-610, which took effect on January 1, 2020. The Fund is defined as an investment trust fund and an external investment pool. The Fund is not a component unit of any other government. The Fund is responsible for investing the assets of Illinois Article 4 suburban and downstate firefighter pension funds. A nine-member Board of Trustees made up of four active firefighters, one retired fighter and four representatives of employers governs the Fund. The Board of Trustees are fiduciaries for the participants and beneficiaries of the participants and beneficiaries of the fund participants and beneficiaries.

B. Fund Accounting

The Fund uses funds to report on its fiduciary net position and the changes in its fiduciary net position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. The Fund is classified in this report in the fiduciary category.

Fiduciary funds are used to account for fiduciary activities (e.g., assets held on behalf of outside parties, including other governments). When investments are held for other entities, an investment trust fund is used.

C. Measurement Focus and Basis of Accounting

The Fund is accounted for with a flow of economic resources measurement focus. With this measurement focus, all assets, deferred inflows of resources, liabilities and deferred outflows of resources associated with the operation of this fund are included on the statement of fiduciary net position. Investment trust fund operating statements present increases (e.g., additions) and decreases (e.g., deductions) in net position.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

The accrual basis of accounting is utilized by the investment trust fund. Under this method, additions are recorded when earned and deductions are recorded at the time the liabilities are incurred.

D. Investments

Investment trust funds are required to report investments at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investment transactions are accounted for on a trade date (date ordered to buy or sell is initiated) and dividend income is recognized on the ex-dividend date. Interest income is recognized on an accrual basis.

Alternative investments, including Real Estate Funds and Commingled Funds, have fair values based on audited financial statements of the funds and then adjusted by the Fund and its investment managers for activity from audit date to fiscal year end using monthly activity statements.

E. Participating Fund Contributions and Withdrawals

Cash Management procedures between the Firefighters Pension Investment Fund (FPIF) and individual Participating Pension Funds are governed by FPIF Policy that has been approved by the Board of Trustees.

Requests to redeem shares from FPIF can be made on a monthly basis. Notice of redemption must be sent to FPIF by 5:00 pm central time on the 1st of each of month. Requests submitted on or before the 1st of each month, will be processed for transfer by the 14th of the month at the net asset value as of the transfer date.

Transfers from a Participating Pension Fund to FPIF will be invested on scheduled investment dates. For the purpose of this policy, "investment dates" mean the 7th, 14th, 21st, 28th and the last business day of each month, or the business day immediately preceding the 7th, 14th, 21st or 28th of the month if the date falls on a weekend or bank holiday. Purchase requests received at least three business days in advance of an investment date will be credited at the net asset value of the following investment date.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses accounted for on the consumption method.

G. Capital Assets

It is the policy of the Fund to recognize the expense of assets in the current accounting period, with the exception of assets with a useful life in excess of one year and an acquisition cost of over \$1,000. Acquisition cost is the unit price of an item, including the cost of any required installation, modifications, attachments, accessories or auxiliary apparatus necessary. Property, plant and equipment are depreciated/amortized using the straight-line method over the following estimated useful lives:

	Years
Buildings	25-40
Building Improvements	10-40
Furnishings and Equipment	5
Vehicles	7

The Fund did not have any capital assets that met the threshold of the policy as of June 30, 2023 and 2022.

H. Compensated Absences

It is the policy of the Fund to permit employees to accumulate earned but unused vacation and sick pay benefits. Accumulated vacation and sick leave are recorded as an expense and liability as the benefits accrue to employees.

I. Long-Term Obligations

In the Fund's financial statements, long-term debt and other long-term obligations are reported as liabilities.

J. Estimates

The preparation of financial statements in conformity with GAAP require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS

The Fund is authorized to invest in all investments allowed by Illinois Compiled Statutes (ILCS). The authority of Firefighters' Pension Investment Fund to manage pension fund assets of Article 4 Pension Funds shall begin when there has been a physical transfer of the pension fund assets to the Fund and the assets have been placed in the custody of the Funds custodian or custodians. After the transition of investment assets from Article 4 Pension Funds to the Fund has been completed, the Fund shall have the authority to manage the pension fund assets of the transferor pension funds for the purpose of obtaining a total return on investments for the long term. The Fund shall not be subject to any of the limitations applicable to investments of pension fund assets currently held by the transferor pension funds under Sections 1-113.1 through 1-113.12 or Article 4 of the Illinois Pension Code. All investments shall be clearly held and accounted for to indicate ownership by the Fund. The Fund may direct the registration of securities in its own name or in the name of a nominee created for the express purpose of registration of securities by a national or state bank or trust company authorized to conduct a trust business in the State of Illinois.

The Illinois Pension Code prescribes the "Prudent Man Rule" as the Fund's investment authority. This rule requires the Fund to make investments with the care, skill, prudence, and diligence, under the circumstances then prevailing, that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an entity of like character with like aims. Within the "prudent man" framework, the Board of Trustees adopts investment guidelines for the Fund Investment Managers, which are included within their respective Investment Management Agreements.

A. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Fund's deposits may not be returned to it. Cash held at the Chicago Trust Company (Wintrust) is covered by the MaxSafe Deposit Account Program. Depositors in this checking program may be eligible for up to \$250,000 of FDIC Insurance per titled account at each of the affiliated banks. There are currently fifteen (15) Wintrust affiliated banks in this checking program, and, therefore, each depositor may be eligible for up to \$3,750,000 FDIC insurance per titled account. The Fund's investment policy does not currently specifically address custodial credit risk, however, the risk is managed by keeping the balance held at Chicago Trust Company (Wintrust) below \$2,000,000 and the daily sweep activity related to the balances held at Northern Trust.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

B. Investments

Investment Rate of Return

For the years ended June 30, 2023 and 2022, the annual money-weighted rate of return on pension Fund investments, net of pension Fund investment expense, was 9.68% and (12.60%), respectively. The return for the year ended June 30, 2022 presents the inception to date return for the Fund beginning with the transition of the first investment assets from Article 4 Funds on October 1, 2021 to the fiscal year end of June 30, 2022. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Fair Value Measurement

The fund categorizes fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

For the year ended June 30, 2023, the Fund had the following recurring fair value measurements:

	Level 1	Level 2	Level 3	Total
Investments by Fair Value Level

- U.S. Treasuries and U.S. agencies: quoted prices for identical securities in markets that are not active;
- Domestic Corporate Obligations: quoted prices for similar securities in active markets;
- International Obligations: Brokers quote in an active market;
- Domestic Equities, International Equities: quoted prices for identical securities in an active market. Brokers quote in an active market;

2. DEPOSITS AND INVESTMENTS (Continued)

B. Investments (Continued)

Investments Measured at Net Asset Value

Investments measured valued using the net asset value (NAV) per share (or its equivalent) are considered alternative investments and, unlike more traditional investments, generally do not have readily obtainable market values and often take the form of limited partnerships. The Fund values these investments based on the partnerships' audited financial statements. If June 30 audited statements are available, those values are used preferentially. However, some partnerships have fiscal years ending other than June 30. If June 30 audited valuations are not available, the value is adjusted from the most recently available valuation taking into account subsequent calls and distributions, adjusted for unrealized appreciation/depreciation, other income and fees. For the year ended June 30, 2023, the Fund had the following investments measured at net asset value:

		Redemption Unfunded Frequency (if Redemption		
	Fair Value	Commitments	currently eligible)	Notice Period
Investments Measured at NAV Commingled Funds Real Estate Funds	\$ 2,447,671,564 229,543,197	\$ - -	Daily Daily	Daily 90 Days
TOTAL INVESTMENTS MEASURED AT NAV	\$ 2,677,214,761	\$ -	-	

For the year ended June 30, 2022, the Fund had the following investments measured at net asset value:

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Investments Measured at NAV Commingled Funds Real Estate Funds	\$ 3,661,117,975 256,238,694	\$ -	Daily Daily	Daily 90 Days
TOTAL INVESTMENTS MEASURED AT NAV	\$ 3,917,356,669	\$ -	<u>.</u>	

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

B. Investments (Continued)

Alternative Investments

Commingled Funds measured at NAV consists of various investments that are blended together in order to provide economies of scale, allowing for lower trading costs per dollar of investment and diversification. These investments provide primarily liquid exposure to publicly traded equity and fixed income markets. The equity and fixed income portfolios provide diversification benefits and return enhancement to the overall fund in both domestic and international markets. The Fund's current NAV measured Commingled Fund exposure consists of investments in seven domestic and international public equity (6) and fixed income (1) funds. Four of these funds are domestic and three are international. The Fund has no plans to liquidate these investments as of years ended June 30, 2023 and 2022. It is not probable that any investment will be sold at an amount different from the NAV of the Fund's ownership interest.

Real Estate Funds measured at NAV consist of one Real Estate Fund. The Real Estate Fund is a diversified real estate equity portfolio consisting primarily of high quality, well-leased real estate properties in the multifamily industrial, office retail and hotel sectors. The fair value of these investments is based on audited financial statements of the funds adjusted for activity from the audit date to year-end. The Fund has no plans to liquidate these investments as of years ended June 30, 2023 and 2022. It is not probable that any investment will be sold at an amount different from the NAV of the Fund's ownership interest.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The Funds investment policy currently does not address interest rate risk; however, the fund manages the risk as described on the following page.

2. DEPOSITS AND INVESTMENTS (Continued)

B. Investments (Continued)

The Fund's policy in regard to the allocation of invested assets is established and may be amended by the Board. It is the policy of the Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. Risk and exposure to credit, currency, and duration (interest rate risk) was calculated, reflected in asset allocations, and is continually monitored by the Chief Investment Officer, portfolio officer, consultant and custodian. In preparing the asset allocations the staff and consultant considered the risk/reward trade associated with the various risks before advising the Board. Guidance for operationally managing those risks was provided by the Board in the form of policy ranges for the respective allocations. The portfolio balance is monitored on an ongoing basis by the staff and consultant. Adjustments are made to keep the allocations within policy and mitigate associated risks.

2. DEPOSITS AND INVESTMENTS (Continued)

B. Investments (Continued)

Interest Rate Risk (Continued)

The Investment Section contains a summary of these guidelines. By statute all investments are held in the name of the Fund or in the name of a nominee created for the express purpose of securities registration.

Credit Risk

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Funds investment policy currently does not specifically address credit risk, however, the risk is managed as described in the interest rate risk disclosure.

As of June 30, 2023 and 2022, the Fund's investments were rated as follows:

	2023			2022

B. Investments (Continued)

Foreign Currency Risk

Foreign currency risk is the risk of losses arising from changes in currency exchange rates and other factors. The Funds investment policy currently does not specifically address foreign currency risk, however, the international portfolio is constructed on the principles of diversification, quality, growth, and value. International managers may also engage in transactions to hedge currency at their discretion. Currency trading may not be used for speculative purposes. The following table presents other foreign currency risk by type of investment as of June 30, 2023:

	ternational Equities	International Obligations		
Foreign Investments Denominated in U.S. Dollars	\$ 9,665,733	\$ 366,903,456		
TOTAL	\$ 9,665,733	\$ 366,903,456

B. Investments (Continued)

Custodial Credit Risk for Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. The Funds investment policy currently does not specifically address custodial credit risk, however, to limit its exposure, all security transactions that are exposed to custodial credit risk are processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Fund's agent separate from where the investment was purchased in the Fund's name.

Concentration of Credit Risk for Investments

The Funds portfolio is managed by professional investment management firms. Each investment manager must comply with risk management guidelines individually assigned to them as part of their investment management agreement. There are no significant investments in any one organization that represent 5% or more of the Fund's investments for years ended June 30, 2023 and 2022.

3. LONG-TERM OBLIGATIONS

A. Loan Agreement Payable

The Fund entered into a loan agreement with the Illinois Finance Authority to provide funds for the payment of ordinary and regular costs associated with the implementation of the transition process. The Closing Date of the loan was March 30, 2020. The Fund is authorized to borrow up to \$7,500,000 until the Final Draw Date, June 30, 2022. During the Capitalized Interest Period, which is defined as the period from the Closing Date to the Final Draw Date, the loan is subject to accrue capitalized interest monthly at an annual rate of 1.50% plus the Federal Funds Rate. Commencing on the first day after the Capitalized Interest Period until the Final Maturity Date, June 30, 2024, the Fund shall pay consecutive quarterly installments of principal and interest at an annual interest rate of 1.50% plus the Federal Funds Rate. As of June 30, 2023, the loan had a principal balance outstanding of \$2,508,866 including \$92,731 of capitalized interest and the interest rate was 6.58%. As of June 30, 2022, the loan had a principal balance outstanding of \$5,017,731 including \$92,731 of capitalized interest and the interest rate was 3.08%.

NOTES TO FINANCIAL STATEMENTS (Continued)

3. LONG-TERM OBLIGATIONS (Continued)

B. Change in Long-Term Liabilities

The following are the changes in long-term liabilities for the year ended June 30, 2023:

	Balances July 1	A	dditions	Reductions	Balances June 30	Due Within One Year
Loan Agreement Payable Compensated Absences Net Pension Liability	\$ 5,017,731 156,001	\$	82,810 338,677	\$ 2,508,865 31,200	\$ 2,508,866 207,611 338,677	\$ 2,508,866 41,522
TOTAL	\$ 5,173,732	\$	421,487	\$ 2,540,065	\$ 3,055,154	\$ 2,550,388

The following are the changes in long-term liabilities for the year ended June 30, 2022:

	Balances July 1	Additions	Re	ductions	Balances June 30	Due Within One Year
Loan Agreement Payable Compensated Absences	\$ 2,589,632 83,546	\$ 2,428,099 89,164	\$	- 16,709	\$ 5,017,731 156,001	\$ 2,470,380 31,200

C. Debt Service Requirements to Maturity

Debt service requirements to maturity for the loan agreement payable as of June 30, 2023 is as follows:

Fiscal Year	Principal]	Interest
2024	\$ 2,508,866	\$	103,177
TOTAL	\$ 2,508,866	\$	103,177

4. LEASES

The Fund entered into a lease agreement for office space on May 5, 2020. The lease term began on July 1, 2020 and ends on November 30, 2025. Monthly installments range from \$4,487 to \$5,358 over the term of the lease. The fund has evaluated GASB Statement No. 87, *Leases*, and determined the effects to be immaterial to the financial statements. The following is a schedule of future minimum rental payments expected to be required under the terms of the intended lease as of June 30, 2023.

TOTAL		326,395

5. EMPLOYEE RETIREMENT SYSTEMS

Illinois Municipal Retirement Fund

The Fund's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and supplementary information for the plan as a whole but not by individual employer. That report may be obtained online at www.imrf.org.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

5. EMPLOYEE RETIREMENT SYSTEMS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Plan Membership

At December 31, 2022 and 2021, IMRF membership consisted of:

Inactive Employees or their Beneficiaries

Currently Receiving Benefits

Inactive Employees Entitled to but not yet
Receiving Benefits

Active Employees*

TOTAL

5

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011 are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual covered salary to IMRF. The Fund is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the fiscal years ended June 30, 2023 and 2022 was 9.53% and 10.54%, respectively, of covered payroll.

^{*}Active employees consist of two in Tier 1 and three in Tier 2.

5. EMPLOYEE RETIREMENT SYSTEMS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions

The Fund's net pension liability (asset) was measured as of December 31, 2022 and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial Valuation Date December 31, 2022

Actuarial Cost Method Entry-Age Normal

Assumptions

Price Inflation 2.25%

Salary Increases 2.85% to 13.75%

Investment Rate of Return 7.25%

Asset Valuation Method Fair Value

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2020.

The Fund began participating in the IMRF defined benefit plan as of January 1, 2022. The IMRF actuarial valuation is completed on a calendar year end, and therefore was not available as of December 31, 2021.

5. EMPLOYEE RETIREMENT SYSTEMS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.25% at December 31, 2022. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Agency contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

5. DEFINED BENEFIT PENSION PLAN (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended June 30, 2023, the Agency recognized pension expense of \$375,613. At June 30, 2023, the Fund reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	D	eferred	Ι	Deferred
	Ou	tflows of	In	iflows of
	Re	esources	R	esources
Difference Between Expected and Actual Experience	\$	-	\$	-
Changes in Assumption		-		-
Net Difference Between Projected and Actual Earnings				
on Pension Plan Investments		4,355		-
Employer Contributions After the Measurement Date		44,942		
				_
TOTAL	\$	49,297	\$	

\$44,942 reported as deferred outflows of resources related to pensions resulting from the Fund's contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the reporting year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	
2024 2025 2026 2027 2028	1,089 1,089 1,089 1,088
TOTAL	\$ 4,355

<u>Illinois Municipal Retirement Fund</u> (Continued)

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Fund calculated using the discount rate of 7.25% as well as what the Fund's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

		Current						
		Decrease (6.25%)	ase Discount Rat (7.25%)			% Increase (8.25%)		
		(0.23%)		(1.2370)		(6.23%)		
Net Pension Liability	\$	408,949	\$	338,677	\$	284,001		

6. OTHER POSTEMPLOYMENT BENEFITS

A. Plan Description

In addition to providing the pension benefits described, the Fund provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and any employer contributions are governed by the Fund and can be amended by the Fund through its personnel manual. The plan does not issue a separate report. The activity of the plan is reported in the Fund's governmental activities. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

B. Total OPEB Liability

Based on the size of the Fund, the number of active plan members, the lack of any retirees participating in the plan and comparison of actuarial valuations for similar entities with similar benefits, the Fund's total OPEB liability as of June 30, 2023, is immaterial and, therefore, not recorded by the Fund and no further disclosure is deemed necessary.

7. RISK MANAGEMENT

The Fund is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three fiscal years.

SCHEDULE OF EMPLOYER CONTRIBUTIONS ILLINOIS MUNICIPAL RETIREMENT FUND

Last Two Fiscal Years

FISCAL YEAR ENDED JUNE 30,	2022	2023
Actuarially Determined Contribution	\$ 40,637	\$ 86,233
Contributions in Relation to the Actuarially Determined Contribution	 40,637	86,233

Covered Payroll	\$ 385,550	\$ 904,517
Contributions as a Percentage of Covered Payroll	10.54%	9.53%

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed, and the amortization period was 21 years (ten-year rolling period for nontaxing bodies); the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.25% annually, projected salary increases assumption of 2.85% to 13.75% compounded annually, wage growth of 2.75%, and price inflation of 2.25%.

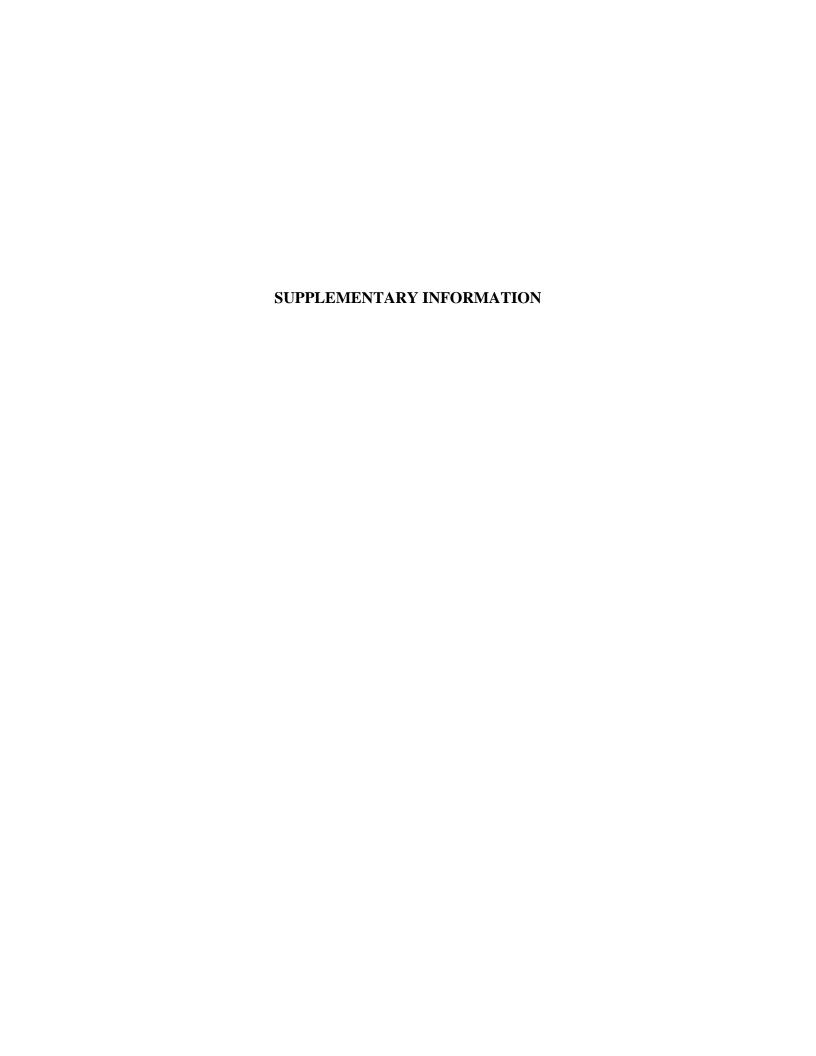

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available. The Fund began participating in the IMRF defined benefit plan as of January 1,

Board of Trustees and Executive Director Firefighters' Pension Investment Fund 1919 South Highland Ave. Building A, Suite 237 Lombard, IL 60148

To the Board of Trustees and the Executive Director

The Northern Trust Company as Master Custodian has provided detailed financial reports of all investments, receipts, disbursements, purchases and sales of securities and other transactions pertinent to the Fund for the period July 1, 2022 through June 30, 2023. Also, a statement of assets together with their fair market value was provided, showing the investments held as of June 30, 2023. The Northern Trust Company certifies that the statements contained therein are fairly presented and are true and accurate.

In addition to the custody of the assets, The Northern Trust Company provided and will continue to provide the following services as Master Custodian:

- 1. Receive and hold all amounts paid to the Fund by the Board of Trustees.
- 2. Accept and deliver securities in accordance with the instructions of appointed Investment Managers.
- 3. Collect dividends and registered interest payments.
- 4. Collect matured or called securities and coupons.
- 5. Provide Performance Reporting
- 6. Invest cash balances held from time to time in the accounts in short term, cash equivalent securities.
- 7. Exercise rights of ownership in accordance with pre-described jurisdiction of stock subscriptions and conversion rights.
- 8. Hold securities in the name of the Master Custodian or nominee form.
- 9. Employ agents with the consent of the Board of Trustees.
- 10. Provide disbursement and security fail float income.
- 11. Member Fund Accounting and Statements.
- 12. On-line reporting.

THE NORTHERN TRUST COMPANY

Bradley Blackwell

Senior Vice President

Report of the Executive Director

FPIF received its first portfolio assets on October 1, 2021. By June 30, 2023, the portfolio's value had grown to \$7,911,039,889. The portfolio has performed well and consistent with expectations.

In FY2023 FPIF began transitioning from the Board's interim asset allocation to its long-term asset allocation. As a result, during FY2023 the portfolio still reflected the Board's interim asset allocation.

In FY 2022, FPIF experienced only nine months of investment performance, as the Fund's consolidation process began October 1, 2021. From October 1, 2021, through June 30, 2022, FPIF experienced a fiscal year return of -12.62% vs. its Policy benchmark of -12.39%. While FPIF was predominantly invested in passive index funds, the Fund lagged its benchmark by 0.23%. Assets received from Article 4 pension funds had to be converted into FPIF's target portfolio. Conversions took place each month that assets were received; however, the assets that were provided to FPIF resulted in deviation from FPIF's benchmark.

FPIF's FY 2023 return was 9.68% vs its Policy benchmark of 10.02%. While performance was under benchmark by 0.34%, the return was in excess of FPIF's 7.125% actuarial rate. Underperformance was driven by FPIF's strategic overweight to emerging markets equity. While broad emerging markets equity indices gained 3.19% during the fiscal year, international developed indices gained 16.35% and U.S. equities gained 18.95%.

For analytical purposes, FPIF monitors the performance of the total fund excluding member fund accounts that are used for cash and security receipts, relative to its policy benchmark. This analysis allows FPIF to evaluate its performance without the impact of assets received from Article 4 pension funds during the consolidation or assets received subsequently. In FY 2022, the return of the ex-member fund composite was -13.99% vs -15.10%, reflecting outperformance of 1.11% [10/31/21 inception for the ex-member fund composite]. While the composite lagged in FY 2023, returning 9.65% vs. 10.02%, the composite has outperformed by 0.54% sinceinception, returning -4.00% vs -3.96%. The composite reflects the efforts of staff in developing the investment portfolio.

Prior to FY2023 the Board had put in place the policies and procedures required to responsibly transfer assets and to prudently invest a multi-billion-dollar portfolio. On June 18, 2021, the Board adopted its Investment Policy, which included interim and long-term asset allocations. On December 13, 2021, the Board adopted its Actuarial Rate of Return of 7.125%. The Board amended its long-term asset allocation at its meeting held June 17, 2022.

The intent of the interim asset allocation was three-fold: 1) promptly and efficiently deploy capital as it came in across the Board's adopted asset allocation, 2) provide flexibility and liquidity so that after consolidation the Board could responsibly transfer from the interim allocation to the permanent allocation, and 3) aggressively manage costs.

The interim asset allocation relied heavily on low-cost, highly liquid, passive strategies. Only three percent of the portfolio was actively managed.

Since the conclusion of FY2022, to persistently meet or exceed its actuarial assumption, FPIF has continued to develop and diversify the portfolio.

FPIF's focus in FY2023 was to begin the process of transitioning from its interim asset allocation to its long-term asset allocation.

The long-term asset allocation is driven by the Board's long-term actuarily assumed rate of return. It is more risk tolerant and less liquid. Working with the staff and its consultant the Board adopted an allocation that prudently balances the need for returns with less aggressive exposures to protect capital. Risk and exposure to credit, currency, and duration (interest rate risk) was calculated, reflected in both asset allocations, and is continually monitored by the Chief Investment Officer, portfolio officer, consultant, and custodian. The ranges adopted by the Board and reflected in the chart below provide guidance to the staff and consultant to rebalance the portfolio, manage exposures, and mitigate risk.

Asset Allocation	Interim Asset Allocation (%)	Long-Term Asset Allocation (%)	Interim Ranges (%)	Long-Term Ranges (%)
Equity				
US Equity	36	25	+/- 5	+/- 16
Developed Market Equity (non- US)	19	13	+/- 4	+/- 10

Rate Sensitive				
Core Fixed Income	12	9	+/- 3	+/- 6
Core Plus Fixed Income	12	9	+/- 3	+/- 6
Short-Term Treasuries	3	3	+/- 1	+/- 1
Real Assets				
Real Estate	5	10	+/- 2	+/- 7
Infrastructure	0	4	+/- 4	+/- 4

The Board took its first step in implementing the long-term allocation on July 5, 2022, when it issued an RFP for active core and core-plus fixed income management. This procurement was consistent with the Board's long-term asset allocation and conducted in accordance with the FPIF's Investment Management Procurement Policy. The process concluded at the Board's December 16, 2022, meeting at which it retained the firms Garcia Hamilton and Brown Brothers Harriman as its first active fixed income managers.

Investment in private markets is a critical component of FPIF's long-term asset allocation. Private markets exposure simultaneously creates the opportunity for enhanced portfolio returns and decreased volatility. As shown above, the long-term asset allocation includes a 31% allocation to private markets—a 10% allocation to private equity, a 10% allocation to real estate, a 7% allocation to private credit, and a 4% allocation to infrastructure.

Given the criticality and complexity of FPIF's private markets portfolio, a separate, dedicated consulting relationship is required to advise the staff and Board on those investments. Further, The Board's approach to private market investing is predicated on allocating 19% of the total portfolio (62% of the private markets portfolio) to four discretionary consultants.

Towards those ends, on February 13, 2023, FPIF issued an RFP for non-discretionary and discretionary consulting services. On June 16, 2023 the Board selected Meketa Investment Group, Inc. as its non-discretionary private markets consultant. As of June 30, 2023, the RFP for discretionary consultants remained open.

Through the course of FY2023 FPIF has continued to develop the portfolio consistent with its own policies. The Board has added active fixed income to the portfolio and has laid the groundwork critical to incorporating private market investments into the portfolio. Further, through this process, the portfolio has continued to do well and add value for participating Article 4 pension funds, plan participants, and their communities.

Investment Policies

Investment Objectives

The investment strategy of the Fund seeks to maximize the likelihood of meeting long-term return objectives, while (i) maintaining prudent risk exposure, (ii) controlling fees and expenses related to management of the Fund and (iii) complying with the governing provisions of the Illinois Pension Code (40 ILCS 5 et seq.) and other applicable laws and regulations. Long-term return objectives are based on an assumed rate of return as set forth by FPIF's actuary.

The Fund is managed with a long-term investment horizon and endeavors to maintain sufficient liquidity, as projected by Staff and the Member Systems, to meet disbursement needs.

Investment Philosophy

FPIF invests for the long-term value of its beneficiaries and, therefore, does not evaluate managers or its portfolio exclusively through short-term (less than three years) performance metrics. The Board and Staff recognize that the diversification of funds across asset classes is the primary determinant of the Fund meeting its risk-adjusted return objective over time. Therefore, the Board, with input from Staff and investment service providers, sets target allocations (the "Targets") for the various asset classes and the portfolio is periodically rebalanced to continue to meet those Targets (the "Strategic Asset Allocation"). Upon establishment of a private markets portfolio, FPIF will seek to maintain a consistent commitment pacing model within the private markets portfolio to ensure appropriate vintage year diversification.

While certain pockets of market inefficiencies may exist, public securities markets tend to be efficient. Therefore, when making investment decisions, FPIF defaults to low-fee, passive strategies and evaluates active investment manager performance relative to appropriate benchmarks.

Active investment managers are considered for FPIF's portfolio when FPIF's retained investment professionals and Staff can (i) demonstrate that a manager can reasonably be expected to add value to the Fund through improved returns and/or mitigated risk (ii) demonstrate a track record of investment performance relative to appropriate benchmarks (iii) provide an opinion with regard to the reasonableness of the proposed investment management fees (iv) provide an informed thesis in support of the strategy and (v) express confidence to the Board in the investment manager's firm, personnel, investment process, and suitability for the Fund.

The Board determines the asset classes and high-level investment guidelines (the "Investment Guidelines") pursuant to which the investment managers may invest. Within the bounds set by the Board, the Staff has discretion to refine guidelines and negotiate more favorable terms, subject to its fiduciary obligation to FPIF, in the best interests of the Fund's beneficiaries and subject to applicable laws.

Strategic Asset Allocation

General. The Board, with input from Staff and investment service providers, sets the Strategic Asset Allocation. The Targets are to be reviewed and approved, at least, every five (5) years.

The Targets set forth in the Strategic Asset Allocation are expressed as a percentage of the Fund's overall market value, with ranges of permissible variations. It is permissible for certain asset classes within the overall Fund's Strategic Asset Allocation to deviate from the Targets during manager transitions, asset class restructurings and other temporary changes in the Fund's portfolio.

Consistent with academic research on the futility of market timing, the Targets will not be changed in response to current market conditions or short-term projections.

The Board will approve the public market funding source (passive benchmark) for any shortfalls to target allocations in private market asset classes.

Rebalancing. Daily market movements, cash flows to and from the Member Funds, and other factors may lead to deviations from the Targets set forth in the Strategic Asset Allocation. The Board recognizes that failing to rebalance the Fund in line with the Strategic Asset Allocation could change the Fund's risk exposure and expected returns. Therefore, the Board accords Staff discretion to take those rebalancing actions which, in the judgment of Staff, are consistent with this Investment Policy and in the best interest of the Fund. If Staff rebalances as a result of being outside of the permissible ranges, Staff will report the results of rebalancing activity to the Board at its next regularly scheduled meeting following such rebalancing.

Staff will rebalance assets to reconcile asset levels with the Targets. In rebalancing, Staff will consider (i) the cash flow needs of the Fund and Member Funds, (ii) relative proportion of overweight or underweight in each specific asset class, and (iii) trading costs. Staff will monitor asset class weights on a daily basis.

Interim Allocation

FPIF has established an interim liquid asset allocation for the near-term investment of its assets. The purpose of the interim liquid asset allocation is to allow FPIF to strategically deploy capital in a consistent manner upon receipt of assets from the Fund's Member Systems, while taking into account existing market conditions, long-term return objectives, and a reasonable time frame to achieve long-term private market and alternative allocations.

Long Term Allocation

FPIF has established a long-term asset allocation for the ongoing management of the Fund. The long-term asset allocation reflects private market and alternative exposures, which FPIF will strive to achieve in the coming years.

Performance Monitoring

Fund Level. The Board will evaluate the performance of the Fund relative to its return objectives, on at least a quarterly basis at its regularly scheduled meetings. Total Fund performance will be evaluated relative to a "custom benchmark" using weights of the returns of available market indices based on the Strategic Asset Allocation and net of all applicable fees.

The Fund's ranking relative to its applicable peer universe shall be evaluated with consideration given to the Fund's risk relative to that of the applicable peer universe.

Staff will periodically arrange education sessions on specific asset classes to assist the Board in monitoring market conditions and portfolio performance.

General Consultant. The General Consultant shall act as a fiduciary to FPIF. Services will include, but not be limited to, assistance in the selection, oversight, and on-going due diligence of the fund's investment managers, investment performance reporting, asset allocation studies, and research as requested by the Board and/or Staff.

Benchmarking. Each investment manager shall have an established benchmark(s) included in its Investment Guidelines, against which performance will be measured. Benchmarks will be consistent with the managers' investment portfolio. Performance will be evaluated net of all applicable fees on a (i) five-year basis, (ii) shorter and longer-term basis as appropriate, and (iii) dollar-weighted basis.

If performance or other matters dictate, investment managers may be added or removed from the Board's Watch List at the Board's discretion.

Each investment manager will provide performance reports and other updates related to its portfolio. Such reports should contain, at minimum: (i) performance versus the applicable benchmark(s), (ii) recent investments or commitments, and (iii) material organizational matters affecting such managers.

Risk Management

Investment Risk. In order to achieve the Assumed Rate of Return, the Fund must assume certain risks. The objective of the Fund's risk management is not to eliminate risk, but to ensure that market-based, strategic, and investment-specific risk is prudently managed across the Strategic Asset Allocation.

Operational Risk. Staff will implement internal procedures to minimize the risk of errors or fraud associated with transfers and to ensure financial reporting adheres to generally accepted accounting principles, or GAAP.

FPIF receives a SOC 1 Report (Systems and Organizational Controls Report) from its custodian on an annual basis. This report is based on a review of the entire control structure in place at the custodian. The review is performed by an external auditing firm. Any internal control weaknesses are identified and management's responses are documented in the SOC 1 Report.

FPIF's internal control processes in all areas of the organization are reviewed and updated on an annual basis. Internal control narratives are provided to external auditors as a part of the annual audit process, and the auditors test the controls by reviewing transactions in various areas. Any internal control weaknesses that are identified and management's responses are documented in FPIF's Annual Audit Report.

Statutory Requirements

The Fund shall be managed in accordance with the governing provisions of Illinois law. For current investment-related statutory requirements, please refer to 40 ILCS 5/1 and 40 ILCS 5/22C et seq.

State and federal lawmakers have adopted laws directing the behavior of public investors, such as FPIF, and from time to time such lawmakers will amend those laws. FPIF acknowledges that fulfilling its fiduciary duty is contingent upon compliance with those laws.

Diversity

FPIF's Diversity Policy seeks to increase access and opportunities for managers, brokers, and venders owned by minorities, women, and persons with a disability.

For specific details, including numeric goals for emerging service provider utilization and FPIF's process in monitoring these service providers' status as emerging, please refer to FPIF's Diversity Policy.

Procurement

FPIF established a Procurement Policy for the selection and appointment of Investment Services providers, including but not limited to investment managers, consultants, and custodians. For the current Procurement Policy, please refer to FPIF's website. For searches conducted by the Board and Staff related to Investment Service Providers, FPIF has a competitive proposal process. To see current and ongoing RFP's, please refer to FPIF's website.

Sustainability and Corporate Governance

Pursuant to 40 ILCS 5/1-113.6 and 1-113.17, FPIF shall include material, relevant, and decision-useful sustainability factors that will be considered by the Board, within the bounds of financial and fiduciary prudence, in evaluating investment decisions. These factors consist of but are not limited to:

- a. Corporate governance and leadership factors
- b. Environmental factors
- c. Social Capital factors
- d. Human capital factors
- e. Business model and innovation factors

In addition, FPIF's efforts will include the following:

- i. Periodic evaluation of sustainability factors to ensure the factors are relevant to the FPIF's investment portfolio and the evolving marketplace;
- ii. Periodic monitoring of investment managers to encourage implementation of the aforementioned factors.

Transition Management

Transition services are most commonly utilized in the movement of securities within the public markets portfolio. Transition management is defined as the professional management of trading out of one portfolio of marketable securities ("legacy portfolio") and into another portfolio of marketable securities ("target portfolio"), while controlling for the timeliness of trades, explicit and implicit costs, and market exposure relative to a predetermined benchmark.

- a. Staff will monitor all costs associated with transition events. Such costs shall include, though not be limited to
- b. Commission Costs: Fees paid to brokers for execution of a transaction
- c. Bid/Ask Spread Cost: Amount by which the execution price exceeds the bid or ask price
- d. Market Impact: Effect that trading has on the market price of traded shares
- e. Opportunity Cost: Cost of market movements over the time it takes to trade

The Board's investment staff shall manage the transition manager bench selection process, in coordination with the Board's Consultant. The Board's transition management bench shall consist of no less than three Board approved transition managers. Each transition manager selected for the transition manager bench shall enter into a transition management agreement with the Board, which shall establish terms and conditions for the relationship.

The criteria for selecting a transition manager to execute a transition will vary, just as the circumstances and types of portfolios being transitioned will vary. Investment staff shall consider the fact that transition managers may over-emphasize the value that can be added by their trading desks. Further, investment staff shall also consider that a firm which offers inexpensive trade execution may be neglecting other important aspects of the transition. Staff shall also consider that a firm which focuses on maximizing crosses may accumulate excessive and unnecessary costs associated with time delays.

Prior to engaging in a transition, the Board's investment staff shall distribute a detailed transition work request to the transition manager bench, which shall include the following information, at a minimum: (i) a description of the specific need for the transition services, (ii) identification of the goals for the transition, (iii) custodial contact information, (iv) a request for a pre-trade analysis that estimates explicit (i.e., commissions, custody, taxes, duties, foreign exchange) and implicit (i.e., market impact, opportunity costs, bid/ask spread) costs of the transition. Transition managers on the bench shall submit specific proposals to investment staff based on the transition work request.

The Board's investment staff and Consultant shall review the proposals submitted by the transition manager pool and prudently craft a transition manager recommendation for the Executive Director's review, selecting the transition manager best suited to execute the particular transition. Each individual transition assignment established under a transition management agreement between the Board and a transition manager within the pool shall be documented in a transition work order, setting forth, at a minimum, the specific tasks, deliverables, schedules, and costs for the specific transition assignment. Each transition work order shall be subject to the terms of the transition manager's transition management agreement with the Board and incorporated as an attachment thereto. All transition work orders shall be approved in writing by the Executive Director or the Executive Director's designee. The Executive Director has the authority to execute the transition work order on the Board's behalf.

Investment staff shall evaluate each transition assignment, assessing the transition manager's performance, cost effectiveness, and implementation efficiency. The Board's Consultant may provide evaluation and reporting services regarding the performance of the Board's transition managers, as well as aid in the solicitation and evaluation of bids submitted by transition managers for specific transition.

Reporting: Additional Information

For the net asset balances and other financial information regarding the Fund, please refer to FPIF's most recent Financial Report on FPIF's website.
